2. Peaceful Journey

Follow me, I'll show you a world you've never seen before
Just close your eyes and open your heart
Imagine - a place where you can create anything you can think of
With still blue waters and clouds that float like angels
So beautiful, so peaceful...
Come with me....

Come with me on a peaceful journey
Come with me and just be who you are
Take my hand and we'll walk in the sunlight
And you will see - see who you are

La di dee, la di dah... it's a peaceful journey
La di dee, la de day... be who you are
La di dee, la di dah... it's a peaceful journey
La di dee, la de day... just follow your heart

Come with me and we'll slide down a rainbow
And dance our dance all around Saturn's rings
You can do whatever you can dream of
You can do, do anything

Chorus

It's a peaceful journey, just follow your heart

3. The Lovemobile

Spoken:

Come on everybody - we're gonna take a little ride together
Gonna follow the road to peace and happiness
Are you ready? Here we go.....1 2 3 4

Come on everybody, come on and take a ride with me
Rollin' down the road behind the wheel
Headin' for harmony
Lookin' up at the sun, sun shining down so bright
On the road to peace and happiness
Everything's gonna be all right

Beep, beep...here we come
Come on everybody have some fun,

Chorus
You're in the Lovemobile,
Beep, beep...here we go
In the Lovemobile,
Not too fast and not too slow
Feel so right, can't go wrong
Come on everybody sing the song
In the Lovemobile.....

First I fill my tank with kindness
Then I turn the key
And start my day with happiness and joy for you and me
A smile for everybody, look they're smilin' back at me
The world looks good from in my car, here in the driver's seat

Beep, beep...here we come
Come on everybody have some fun,
Get in my Lovemobile

Chorus

Keep on turnin', Beep beep, here we go
Keep on rollin', Beep beep, here we go

4. One Big Family

We are one, you and I
Underneath one giant sky
Different dreams, different ways
Still inside we're all the same

From distant lands, near and far
Joined together, here we are
Made to love and live in peace
Our differences make harmony

Oh the world is one big family
I am you and you are me
We share the same love, the same life
Oh we're all just one big family

Rainbow shades, all are we
Black and white and in-between
Big and small, but we were all made by God so we can see

Chorus

We are connected, we are connected
Oh we are one together, you and me
We are connected, we are connected
Brother's and sisters, all are we

Chorus

5. Be Who You Are

Would you like to be a bee that buzzed around
Or would you rather be a dog that had a flea
How about if you could be a shiny star
I think you're beautiful to just be who you are

Would you like to be a tiger in the woods
Or would you rather be a fish that swims the sea
I think it's more fun being you and being me
I think it's beautiful to just be who we are

OH...you got it all now
Just be who you are
OH...you gotta a lotta soul now...

Would you rather be a flower growing tall
It might be fun until the rain forgot to fall
I think it's better to be what I want to be
Think I want to keep on just being me

OH...you got it all now
Just be who you are
OH...you gotta a lotta soul now...
Just be who you are

You know you make the world a better place
With your great big smile and your wonderful face
You got a mind of your own, got a hug so tight
Oh you could fill the sky with your heartlight.....

OH...you got it all now
Just be who you are
OH...you gotta a lotta soul now...
Just be who you are

Look out...below
Just trust yourself and go, go, go
You gotta lotta love - set it right
And you can build a world out of your life

Chorus

6. The Still Small Voice

There is a still small voice within
One voice that speaks of love
Open your mind & your heart
It's in everyone of us

No matter what name you call that voice
The little small voice within
It knows what to say & to do
So hear what it's telling you
The still small voice in you

9. Train Of Thought

All aboard...next stop
"Your choice"
This train's gonna take you wherever you want to go

Now once upon a time there was little Red
A little red engine that could yeah
Little Red had a train of thought
Little Red picked the box cars one by one
It was a smooth runnin' train, from beginning to end
A smooth runnin' train

Oh the first box car was filled with love
(woo, woo, filled with love)
In the second box car was helpfulness
(woo, woo, helpfulness)
The third box car was filled with happiness
The next one filled with truth
And a bunch of Red's friends joy and laughter and fun
Were ridin' in the yellow caboose
That was little Red's train
Train of thought

Woo, woo, clackety clack
Little Red's train stays right on track
North to South, East to West
Little Red's train is the very best
That Red's the boss, got a new train of thought
That Red's the boss....
Clackety clack, don't look back,
Clackety clack, don't look back,

10. 3 Little Words

There's nothing you could ever do
Nothing you could say
That could change the way I feel about you
I will keep you safe and warm throughout eternity
I will always say these words so true

Three little words to let you know how much I care I do
Three little words, I love you

If I could, I'd hold you in my arms for a million hours
If I could, I'd make your dreams come true
But I can only show you how and tell you who you are
You're the One, you're the sun, you're the moon...you're the stars

Three little words that's all I've got to say
How much I care
Three little words

Oh don't ever be afraid to show it
Don't ever you forget to know it
Those three little words, I love you-oo
I love you, I love you-oo

11. All You Have To Do Is Whistle

When you're down and feeling blue
There is something you can do
Make a circle with your lips and blow the air right through

Just whistle, just whistle
Whistling makes you feel so fine
Whistling makes your spirits climb
Just whistle, just whistle
And you'll be happy every day

There's a song inside of you
A little voice that's tried and true
All you have to doodle ee do
All you have to do is whistle

Chorus

With your own song
With your own style
With your own breath

Just whistle, just whistle
And you'll be happy every day

12. Creative World

A sky can turn from gray to blue
A seed can turn into a flower
And you can make a dream come true
It's a creative world

Winter changes into spring
Caterpillars become butterflies
Oh you can do anything
It's a creative world

It's a creative world
It's a creative world
For every boy and girl
You and do it if you put your mind to it

Oh you can change a heart with just one smile
You can be anything you want to be
Let your imagination run wild
It's a creative world

We can change the dark into light
Just like the night becomes the dawn
Whatever's wrong we'll make it right
It's a creative world

Chorus

You can do it, you can do it,
You can do it if you put your mind to it.
You can do it, you can do it, Its' a creative world.

Chorus

13. Before I Sleep

Before I sleep I say a prayer and know that peace is everywhere
And when I dream I fly so free and angels are watching over me

Before I sleep I bless my friends and know
that we're all in Gods hands
Everyone of my family and anyone, anywhere in need

Before I sleep I count the stars that shine their light
from near and far
I know God's listening, I believe
Somehow my prayer is heard...before I sleep
